Gowthami Minchala Tirupati, India | +91 8639981727 | gowthamiminchala@gmail.com

Summary

Cloud and DevOps Engineer with practical foundations in AWS, Docker, Terraform, GitHub Actions, Jenkins, and Linux/Bash administration. Backed by 2.5 years of operational and analytical experience, bringing strong process discipline, SLA management, and troubleshooting to cloud environments.

Core Skills

- Cloud & IaC: AWS (EC2, VPC, S3, IAM), Terraform
- Containers & Orchestration: Docker, Kubernetes (exposure), Helm (learning)
- CI/CD & GitOps: GitHub Actions, Jenkins, Git, branching strategies
- Systems & Scripting: Linux Administration, Bash (strong), Python (basic)
- Networking & Security: TCP/IP, SSH, IAM, firewall rules, SSL/TLS
- Monitoring & Reliability: Prometheus, Grafana (exposure), incident handling

Professional Experience Associate – Mortgage Process | Visionet Systems Pvt Ltd (May 2023 – Sep 2026)

- Delivered 99 percent accuracy in high-volume mortgage data streams under strict SLA deadlines
- Automated repetitive workflows with custom Bash scripts, improving efficiency
- Collaborated cross-functionally to resolve system and data discrepancies

Technical Projects

- Three-Tier AWS Web App: Provisioned VPC, subnets, NAT Gateway via Terraform; deployed Dockerized backend on EC2 with IAM-managed secrets
- CI/CDAutomation Pipeline: Built multi-stage GitHub Actions workflows and Jenkins pipelines with shell-based health checks
- Linux Server Hardening: Configured SSH keys, permissions, firewall rules, and automated monitoring with Bash plus AWS S3 backups

Education B.Sc. Computer Science | GATE Degree & PG College, Tirupati (2020–2023) | CGPA: 7.9

Languages English, Telugu, Hindi, Kannada, Tamil
